EXILES Bike Riding related issues Check-up List

Before you proceed with a ride (long or short one) it is recommended that the following is done:

Technical/ Safety Issues:

Items	Tick off list
- Check the brake-pads and functioning of the break system. Look out for leaks.	
- Ensure that the break fluid level is well above the limits.	
- Check the tyre pressure and condition of the tyres.	
- Check the function of the Head lights (long and short beam) and replace bulbs if required.	
- Check the functioning of all signal lights and replace bulbs if required.	
- Check the motor oil, gear box oil levels and top up if required.	
- Have common spare parts such as spark plugs, bulbs, oil as well as some standard tools available in particular if you are going on long rides and service the 'iron horse' beforehand.	

General Issues:

Items	Tick off list
- Clean and polish your bike	
- Wear suitable riding equipment such as helmet, safe riding shoes, jacket/vest, gloves, sunglasses etc.	
- Fill up the Fuel tank to the top	
- Listen to safety/route instructions offered prior to departure	
- Read the EXILES Safety rules frequently and abide by those.	
- Carry a first aid-kit with you	
- Fix and secure any luggage you may carry with you	
- Do not consume booze whist riding.	
- Abide to speed limits and instructions provided.	
- Ride carefully and 'think' for others on the road.	
- In case of concerns or issues, do not hesitate to contact the Club Captain, Road Captain or Safety Officer.	

Ride safe and often.
